

Financial Options

It is our goal to provide the best possible dental care for you. We do realize that financial concerns are unavoidable. We therefore offer the following financial options. We will be happy to work with you to plan the most appropriate arrangements for you. We want you to be able to enjoy the benefits of dental health.

Assignment of Insurance: Our office understands the value of insurance benefits to our patients and we gladly accept assignment of insurance benefits. Rarely does an insurance company cover an entire bill. We will do our best to estimate your deductible and the portion that will be covered by your insurance carrier. We are willing to file claims with most insurance companies as a courtesy to our patients, however, any balance remaining is your direct responsibility. This includes any non-covered services, yearly deductible, or co-payments particular to your individual insurance plan. Since it would be impossible for us to be familiar with the details of every insurance plan, we ask that you be aware of your financial responsibilities under the terms of your policy.

Signature _____ Date _____

Payment Options:

Savings Program for Prepayment in Full: Our office offers a savings program for patients willing to pay for the entire cost of their treatment prior to treatment beginning. We extend a 10% savings for prepayment in cash and 5% for prepayment with a credit card for those who participate. The savings program does require that you file and accept your insurance. There is no assignment of benefits to our office.

Outside Financing Options: Our office has contracted with a financing company so that we can offer you several attractive payment options. The qualification process is simple and can usually be completed in a matter of minutes. You have the choice of either payment plans with low fixed rates or interest free options within this program.
